Title	<i>Update profile option allows updating profile with empty required fields</i>
Date	<i>25/08/24</i>
Operation System	<i>Windows 10 Pro</i>
Browser	<i>Chrome Versión 127.0.6533.122 (Build oficial) (64 bits)</i>
Priority	<i>Medium</i>

Description

The user's profile page allows you to update the profile by leaving the First Name and Last Name fields empty.

Steps

- 1.- Go to <https://buggy.justtestit.org/>
- 2.- Enter correct username and password.
- 3.- Click on the profile option in the upper left.
- 4.- Click and press space in the First name and Last name field and do not enter any other character to Leave the First name and Last name field empty.
- 5.- Click on the save button

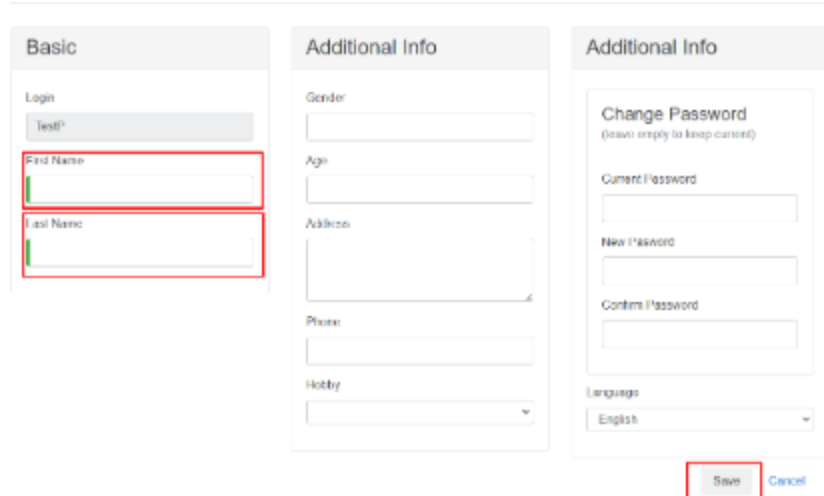

Expected Result

The page should validate the required fields and display an error message.

Actual Result

The profile page allowed saving and displayed a success message.

Screenshot, video, other.

The image shows a user profile form with three main sections: Basic, Additional Info, and a Change Password section. The Basic section contains a Login field with the value 'test@' and two empty text input fields for First Name and Last Name. The Additional Info section contains fields for Gender, Age, Address, Phone, and Hobby. The Change Password section contains fields for Current Password, New Password, and Confirm Password, along with a Language dropdown menu set to 'English'. A red box highlights the 'Save' button at the bottom right of the form.

Diablo

This last **Diablo** in a decade of flamboyant—some daresay outrageous—sports cars first introduced in 1990 is certainly the best Diablo.

The VT is, curiously, a very high-powered four-wheel-drive beast. Situated amidships is the biggest, baddest V-12 engine we've ever tested in a Diablo. For 2000 model, Lamborghini has lengthened the stroke by 0.16 inch, lightened the crankshaft, used lighter and stronger titanium connecting rods, and updated old 16-bit engine-control system to a more powerful 32-bit unit. As a result, peak engine output has been promoted to 543 horsepower at 7100 rpm, 20 mc found in the last Diablo. Torque is up 11 pound-feet to 457 at 5800 rpm.

Horsepower freaks take note: *This latest Diablo now has more horsepower than four four-cylinder Toyota Camrys.*
